CLINICAL CHEMISTRY

ChemTek
BIOCHEMISTRY ANALYZER

ChemTek
BIOCHEMISTRY ANALYZER

- *Performs Endpoint, Kinetic, Fixed Time, Multistandard, Dichromatic assays.*
- *Open system for user-defined programs.*
- *Touch screen with integrated alphanumeric keyboard.*
- *Multilanguage capability, up to 6 different languages (including Chinese characters).*
- *200 programmable tests.*
- *Intelligent worklist management.*
- *Patient archive.*
- *1000 results storing capability.*
- *Patient name length 16 characters.*
- *Sample repetition.*
- *Each test handles 3 different QC values (Quality Control).*
- *Built-in six position incubation block.*
- *Integrated pump and flow cell.*
- *Internal pre-adjusted Peltier element at 25°C, 30°C, 37°C.*
- *Personalizable aspiration features.*
- *16 different QC values storage.*
- *25 QC archives with 100 results.*
- *Results shown on graphic display and printed on paper by built-in printer*
